Resort activities and options for fitness and exercise take the word "work" out of any workout or exertion and replace it with "fun" and "enjoyment" or even a measure of excitement if you are so inclined. The resort beach is a natural playground difficult to surpass for water-sports or socialising, while nearby islands offer a world of discovery both above the shoreline and beneath the sea. While those requiring a little more privacy, may wish to splash in freshwater or relax poolside with service and delicious refreshments effortlessly summoned with a casual wave of the hand.
